Promoting
Innovation, Quality
and
Competitiveness in
the *Medical Device*
Sector in PR

Mission

The mission of the Medical Devices Cluster is to integrate medical device manufacturers, providers and related institutions to develop strategies and foster synergies that will enhance the business environment in the areas where cluster members conduct their operations.

MD Cluster Initiatives

Education & Training

Supply Chain

Regulatory & Compliance

Benchmarking Activities

Product Development

Key Objectives

- ✦ The MD cluster must enable the MD companies in PR to identify common needs/concerns, goals and requirements to make them more competitive in the short term and in the long run.
- ✦ The MD cluster should enable and promote the best, cost efficient and Reliable/Quality Supply Chain in the Island on raw material and services.
- ✦ The MD cluster should integrate the academia, government and MD companies to have an integrated Strategic plan to help the MD companies to strength the people's skills and enhance people capabilities for future changing technologies.
- ✦ The MD cluster should foster links and alliances with other associations, industrial groups, government agencies that will enhance our business operations in Puerto Rico. (i.e. Interphex, AdvaMed, etc.)
